

## INVITATION TO SUBMIT AUDIO CLIPS FOR OUR JUKEBOX

We are looking to add audio clips to the selection on the Juke Box and if you have any clips you think might be suitable we certainly would like to hear them. The format should be as HI Fi as possible as they will have to be converted for the site later. We would ask you to send them on a CD Disk to us in the U.K as problems can occur with large e-mail files and they can clog up our inbox. You can also send them to your main distributor if you wish for forwarding to us.

I would like to make a point that clips should be made using a Roger Mayer Effect preferably on its own to show off the sound it can make. We will edit the clip to a length that would not exceed 30secs so keep this in mind. Also as there is provision on the info page to have some self-publicity please lets have your links or myspace page info and we will do our best to accommodate you. Our website at the moment is receiving about 200,000 hits a month.

We regret that we cannot return disks and it is to be understood that submission of audio samples is on the understanding that the full permission is given by you for us to use the samples free of charge only for use on our jukebox.

If you are sending CD's from abroad to the U.K please make sure they are packed securely and that the correct customs forms and postage are attached to the package listing the goods as samples with a nominal value.

We look forward to hearing what you have in store for us. Please send the CD's to:

Roger Mayer  
Audio Clips  
17 Salisbury Rd  
Worcester Park, Surrey  
KT4 7DF  
England.
